

Patient / Parent Comments

- "It is amazing to me that my children get excited about going to see Dr. Drew. The staff is always friendly and informative." ~Caleb's Mom
- "We had a great visit; I was thoroughly impressed by the staff and the office. I was so pleased with how well my son was treated and how happy he was when we left." ~Brian's parents
- "Everyone was GREAT!!! Such a positive experience for my 6 year old who was referred to you because of her fears and not being so cooperative at her dentist. She did great and loved it. She even wants to come back. That's huge for her!! THANKS." ~Caroline's Mom
- "This was Kaden's first visit to the dentist and I was a little nervous on how he would react. Everyone there made him feel so comfortable and he did great! The lady that was assisting was great at explaining everything. Dr.Osborn was amazing with Kaden. Thank you very much!" ~Kaden's Mom
- "I can offer no room for improvement for your facility. Dr.Drew and his staff are truly an amazing group. I recommend his practice whenever the subject of dental care is brought up with other parents. Thanks for making dental visits as enjoyable as they can be for my children." ~Addy's Mom
- "Dr. Osborn is excellent at dealing with children and very personable with information regarding our child's dental care." ~Trinity's Mom
- "I refer every parent looking for a pediatric dentist to you. I drive 50 minutes from Monroe County to see you all and probably pass 20 dental offices on the way, but would never consider going anywhere else. Nick was actually disappointed that he didn't have any cavities because he wanted to come back sooner! As a child, one of my biggest fears was going to the dentist - thanks for making it such a good experience for my children and helping me NOT pass that fear along to them!" ~Nick's Mom
- "Such a great staff, so adaptive to our little guy, I will definitely recommend to other parents, especially those with special needs children. It was soooo worth the drive from Farragut!!" ~Bobby's parents
